Homework	Marketing	Homework	5/5/2026		Low	Chapter 20

TASK/ASSIGNMENT TRACKER

BY: BAILEY TURNER

Stay on top of your classwork one submission at a time.

A desktop app built with Python and tkinter that helps students organize their assignments. Fill out a simple form, hit submit, and your assignment is automatically saved to a color-coded Excel spreadsheet. It is then filterable by assignment name, class, type, due date, target completion date, priority and notes.
